# PALANIKUMAR R.

Senior Technical Lead | Healthcare EDI Specialist | Production & Quality Coordination | AI Application Developer (Developing Skills)

## PROFESSIONAL SUMMARY

Healthcare EDI and technical operations professional with more than 22 years of service at Exela Technologies, from October 2001 to 14 August 2024. Progressed through seven designations, from Junior Processor to Senior Technical Lead. Experienced in healthcare data formats, configuration, data mapping, production support, delivery quality, and cross-functional change coordination. Currently developing practical AI application skills with Python, Streamlit, Ollama, and locally hosted language models.

## PROFESSIONAL EXPERIENCE

**Exela Technologies**

**Senior Technical Lead (final designation)** | October 2001 - 14 August 2024

**Career progression:** Junior Processor > Processor > Senior Processor > Data Analyst > Senior Data Analyst > Technical Lead > Senior Technical Lead

- Contributed to UnitedHealthcare (UHG) projects and healthcare EDI processes.
- Worked with EDI configuration, data mapping, requirements-based processing, and delivery practices.
- Supported Technical Delivery Managers by coordinating discussions and follow-ups for Customer Change Requests (CRs) and Internal Customer Change Requests (ICRs).
- Coordinated CR/ICR activities across Development, Configuration, Testing, QA, and Production teams; tracked ETAs and followed up on outstanding work against agreed timelines.
- Supported production stability, delivery quality, and SLA/process compliance.
- Worked with healthcare formats and outputs including HCFA, UB-04, Superbills, RX, NSF, ANSI, TEXT, XLS, and XML.

## TECHNICAL SKILLS

**Healthcare:** Healthcare EDI operations, configuration, data mapping, healthcare formats, requirements analysis, delivery-process coordination.

**Application development:** Python, Streamlit, Ollama, locally hosted language models, prompt design, knowledge-base question answering, RAG concepts, document processing, CSV-based storage.

## SELECTED PROJECTS

**AI Helpdesk Ticket Router**

Python, Streamlit, Ollama, local language models, and CSV-based storage. The application is undergoing development and validation; production deployment and measurable business outcomes have not been established.

**AI Knowledge Assistant**

Development experiment using document ingestion, text chunking, embeddings, and retrieval-based question answering with Python, Streamlit, Ollama, Qwen2.5, and nomic-embed-text. Formal performance benchmarks have not been established.

**Portfolio Chat Assistant**

Portfolio question-answering application under development and testing, using owner-approved Markdown knowledge and focusing on grounded responses without invented personal or professional details.

## EDUCATION

**Higher Secondary Certificate (+2)** | Government Boys Higher Secondary School | 2001

Subjects: Mathematics and Biology. **Highest completed qualification.**

**B.B.A. studies (not completed)** | Madras University | 2003-2006

## ADDITIONAL INFORMATION

Developing practical AI application skills through hands-on projects. Public contact details and verified certifications have not been supplied for inclusion.
